Technology that redefines Workforce Management

OPTIMUS₂

Online Personal Time and Information Management Utility System (OPTIMUS₂) – On the outside, a large, easy to read display and familiar ATM-style interface. On the inside, functionality far beyond old fashioned time and attendance and payroll terminals. The OPTIMUS₂ is a full-service/self-service terminal that allows for both the input and output of information to help employees as well as HR professionals manage their business.

- Large, easy-to-read color display (touch screen option)
- USB and Ethernet connectivity
- Tamper resistant rugged keypad
- Onboard and remote diagnostics
- Familiar ATM-style interface – self-service functionality
- Biometric options for increased personal security
- Modular, field-upgradeable readers
- WAN and LAN connectivity

Maximus AccuTouch

This state-of-the-art Internet appliance removes limitations through use of open standards. Designed for those who demand more: Java™ programmability, web services, open standards, complete field upgradeability, customized keypad overlay and display lens for unique branding.

- Internet appliance
- Java™ programmable
- Fully interactive or stand alone
- Eight programmable function keys
- Onboard and remote browser-based setup
- Field upgradeable – avoids obsolescence
- Biometric option eliminates costly buddy punching or ghosting
- Ultra-rugged cast aluminum enclosure
- Secure key-lockable, hinged base
- Multispectral reader

PRODIGY

The ideal blend of performance, function, style, and affordability. Prodigy is for those who demand a rich suite of features at an affordable price: plug and play, web services, customizable function keys, optional biometrics and more!

- Internet appliance
- Plug and play
- Onboard and remote browser-based setup
- Biometric options for increased personal security
- Programmable function keys
- Ergonomic design with angled card slot
- Works in all WAN and LAN environments, including WiFi, modem, and Ethernet

PAYmate

Designed for those who demand simple setup and ease-of-use, with HTTP, XML and DHCP network connectivity. The PAYmate is an advanced user-friendly time and attendance terminal, featuring Ethernet connectivity and power-over-Ethernet. It features a customizable overlay to fit comfortably with your design needs, with one-wire connectivity and power to simplify installation, and an easy two-button interface. The durable design, HTTP connectivity and field-upgradeable firmware ensure a long lifespan and great dependability.

- Easy to install and use
- Internet appliance
- Power-over-Ethernet
- Field-upgradeable firmware – never outdated
- Two function keys (In and Out)
- Stores up to 2000 punches
- Advanced, rugged and dependable
- Meets IP54 requirements

MAXIMUS SEVERE DUTY

A robust time and attendance solution featuring a NEMA 4X rated enclosure and IP65 certification. Designed with water-and-dust-tight seals for those who demand a feature-rich terminal that works in harsh environments. The Maximus Severe Duty provides cutting-edge technology and supports web services, open standards, complete field upgradeability, keypad and function customization, along with a variety of ID readers, optional Java™ programmability, optional heaters, and more.

- IP65 certification and a NEMA 4X rated enclosure
- Water tight
- Dust tight
- Environmentally sealed
- Internet appliance
- Eight programmable function keys
- Field-upgradeable
- Optional Java™ programmable
- Optional power-over-Ethernet module
- Optional single or dual heaters, operates from -31° C

Global series

INCLUDES:

- Battery-backed real-time clock, 12- or 24-hour format (quartz precision)
- 0 – 9 numeric keypad with Clear/Enter keys
- Onboard and remote browser-based configuration and diagnostics
- 10/100 BASE-T Ethernet with DHCP

Optional: UPS, power-over-Ethernet, internal modem, security encryption, DI/DO, barcode and magnetic readers, SmartCard readers, and much more!
