Accu-Time Systems Hires John Kinnear as Vice President of International Business Development

Accu-Time Systems, a leading manufacturer of workforce management, time and attendance, and security access products, is pleased to announce the hiring of John Kinnear to the position of Vice President of International Business Development. “We are thrilled to have John on board. With his rich background of International Sales and Marketing for companies like Data General and EMC, we are confident that ATS customers around the globe will be well served by his leadership,” said Peter DiMaria, CEO of Accu-Time Systems.

John’s sales experience spans several continents, with the majority of those years spent in the European Union. Added Mr. DiMaria: “John has a terrific blend of International Sales and Marketing experience with technology-based companies that makes him uniquely suited for this strategic role.” John will guide ATS’ international growth, focusing on the EU and Latin America. He will oversee all international ATS Sales personnel.

ATS continues to strengthen its leadership position in the market both domestically and internationally. ATS recently added a Latin America Strategic Alliance Manager in response to the increasing demand in the region. ATSE, the wholly owned subsidiary in Europe, has shown steady growth since its inception in 1997 and is satisfying demand in not only the EU, but also in Australia and the Middle East among other regions. This growth and overwhelming interest in ATS around the world is the result of ATS' long standing reputation of providing quality terminals and being a market innovator, and underscores the need for a focused professional to oversee and lead this continued global expansion. Additionally, ATS in 2006 will continue to launch its next generation suite of workforce management terminals (the Optimus being the first, released in January 2006) and new support programs while also becoming 100% compliant with RoHS. Concluded Mr Dimaria, "John's leadership will be critical to ensure ATS successfully manages the increasing global demand."

Based in Ellington, CT, ATS is a leading provider of biometric and non-biometric workforce management tools, offering state-of-the-art solutions for time and attendance, payroll, and security access. ATS products incorporate the latest reader technologies: from barcode to write/read smartcard modules to advanced biometrics, ATS products help you achieve your workforce management goals. ATS: Answers for HR Professionals™
