***Accu-Time Systems, Inc. Announces
European Expansion with its
Newly Opened Netherlands Office***

Ellington, CT - January 21 , 2008 - Accu-Time Systems, Inc., a leading manufacturer of workforce management, time and attendance, and security access products, today announced its continued expansion in Europe with the opening of operations in The Netherlands. The newly opened office in Ede will be managed by recently appointed European Channel Sales Manager Jacob Lucas, whose responsibilities include helping ATS European partners with their plans for further market penetration in the region. Mr. Lucas brings extensive experience in the sales and marketing of technology products to his new post, having held positions with Wang, Getronics and 2Trade4 BV. A graduate of Technisch College and the Business School of Utrecht, he holds degrees in information technology and business. ATS has already had a presence in the European Union for over 10 years with its wholly owned subsidiary, ATSE, in the United Kingdom.

Peter DiMaria, Founder and Chief Executive Officer of Accu-Time Systems stated, “With increasing demand for intuitive Human Capital Management devices like the Global Series, we felt this was a perfect time to respond by increasing our presence in this important and expanding region.” He added, “While we have a network of very capable business partners throughout Europe, the ability to offer a direct resource for these partners and their customer makes ATS both an attractive and a low risk choice in HCM.”

European Expansion
P. 2

John Kinnear, Accu-Time's Vice President of International Business, commented "We are very pleased with the addition of an office in Ede and view it as a strategic expansion as market demands for HCM products and technology increase." Mr. Kinnear added, "This is an exciting time for ATS given that we now have a new generation of product, the Global Series, which was designed with the European market in mind and which has met with significant success. Mr. Lucas, with his extensive background in information technology and sales experience, is a welcome addition to our European team. His expertise will be invaluable to us as we seek to strengthen our initiatives in that important region."

About Accu-Time Systems, Inc.

Accu-Time Systems, headquartered in the United States, is the leading provider of biometric and non-biometric workforce management (WFM) and human capital management (HCM) tools. ATS industry-leading products have become widely used for payroll, time and attendance, workforce management, and security access. With a product line that extends from simple entry-level time and attendance terminals to state-of-the-art programmable biometric systems, ATS provides solutions for nearly every industry in all corners of the globe.
