Sleek New PAYmate™ Time & Attendance Terminal Introduced at NRF.

PAYmate™ Simply Works

Ellington, Connecticut –January 10, 2011 – In its continuing quest to develop effective and proven workforce management tools for its customers, Accu-Time Systems announced the introduction of its new PAYmate™ simple time & attendance terminal.

The company exhibited its new PAYmate™ at the National Retail Federation’s annual meeting in New York City. The terminal is designed for retailers and other businesses around the world that require a small, attractive, simple to install and use, low-cost time & attendance terminal with integrated contactless card reader.

PAYmate utilizes XML, HTTP, and DHCP network connectivity, power-over-Ethernet, two function keys, a bright clear display, a tough polymer case, and an integrated MiFare reader. ATS has also designed PAYmate with an exclusive angled mounting wedge that allows PAYmate to be mounted directly to a single-gang US or UK electrical box at the correct ergonomic angle or, by swiveling the mount, can be set on a desk or work counter and angled toward the user. The company has gone a step further with PAYmate by designing in features that make the device IP54 compliant, which ensures that water and dust do not enter the case. A unique elastomeric cover, designed by ATS, shields the Ethernet port from exposure. Like Accu-Time Systems’ other products the terminal’s label can be customized to meet channel partners and users unique needs.

According to Peter DiMaria, Accu-Time Systems CEO and Founder, “PAYmate was designed exclusively to meet some very specific needs as requested by our channel partners and payroll provider customers. We believe ATS has developed a product that now allows them to expand into segments of the time & attendance markets that they could not cost effectively reach.”

Good looks, small size, easy to use.....PAYmate™ Simply Works.

About Accu-Time Systems, Inc.

Accu-Time Systems, a subsidiary of Amano USA Holdings, Inc., is a global company headquartered in the United States with offices and channel partners in North America, Latin America, Europe, Africa, and the Middle East.
