For Immediate Release

***Accu-Time Systems, Inc. Announces Release of the
Color Touch Version OPTIMUS™***

Ellington, CT – May 14, 2008 - Accu-Time Systems, Inc., the leading manufacturer of workforce management, time and attendance, and security access products, today announced the release of the Color Touch OPTIMUS, part of its Global Series product line representing the next generation Human Capital Management (HCM) solutions.

Accu-Time Systems' Online Personal Time Information Management Utility Station, or OPTIMUS, which was originally released in 2006, has quickly become the standard for employee self-service stations. With the latest addition of the color touch option, this Human Capital Management device is intuitive, easy to use, and possesses the rugged design that is a hallmark of ATS products. The OPTIMUS features a large, easy to read 5.7" programmable color touchscreen display that is unique as an input device. Fully programmable in either the popular ATS UCS (Universal Command Set) language or in Linux, the OPTIMUS works in a variety of applications, including manager functions, employee self-service, and card approval as well as bar code and state-of-the-art biometrics. Designed to work with the best HCM applications today, the OPTIMUS is engineered to be completely field upgradeable while providing years of rugged service.

Accu-Time Announces Release of Color Touch Version of Optimus

P. 2

Feature-rich, the OPTIMUS supports all popular automatic identification technologies, including Bar Code, RFID, Proximity, Magnetic, and MIFARE as well as other contact less Smart Cards, and several biometric technologies. The OPTIMUS is smart; its architecture is equipped with a powerful processor and RAM to run some of the most demanding applications. It can be interactive or batch mode programmable. Web-enabled, the OPTIMUS supports TCP/IP, Web Services, and wireless.

According to Peter DiMaria, founder and CEO of ATS, “The OPTIMUS is a single, integrated unit that eliminates the need for expensive, redundant systems, and allows executive management the ability to take full advantage of the comprehensive data and knowledge gained through a multi-faceted, integrated system.”

Added Mr. DiMaria, “ATS is also proud of the fact that the OPTIMUS is “green”, manufactured with a commitment that all components are recyclable and/or land-fill friendly, fully compliant with the requirements of RoHS, and meeting defined environmental standards for sustainability.”

About Accu-Time Systems, Inc.
